

Hotel style

With a guest suite this charming, visitors will want to stay forever...

STORY *Laura Barry* | STYLING *Megan Morrison & Julia Manfredo Hughes* | PHOTOGRAPHY *Pete Russek*

Julie Manfredi Hughes, director of Décor JMH, had a very clear vision of what she wanted to achieve when renovating her heritage home in Sydney's Paddington. This gorgeous bathroom is located in the studio, a new first-floor extension to the garage. Contemporary and playful, the interior design was inspired by boutique hotels, says Julie. It features a wall-mounted Catalano Zero basin and coordinating toilet, teamed with matt-black tapware from Rogerseller and a metal bench seat, which is perfectly located under a sunny window. The same large-format terrazzo-style tiles from Di Lorenzo Tiles are used on both walls and floor to create an elegant soft-grey backdrop with textural appeal. There are also luxe touchpoints, such as the Benedini Associati for Agape mirrored cabinet from Artedomus and the vertical heated towel rails from Rogerseller's Eccentric range. "The monochromatic colour scheme plays into the minimalist style of the room while keeping the aesthetics interesting yet timeless," says Julie. "The architecture is by Luigi Rosselli. I love the romance of the archway entrance as it invites you to glimpse through to the bathroom."
